

RosterM.D.

Putting the Health back in Healthcare

40% of Medical Staff
reports Burnout

Burnout causes Medical Errors —
Costing the U.S **20 billion** annually

Disconnected Administration affects
your Doctor and thus, **YOU!**

Here's what your doctor's brain looks like

My arthritis makes
CONSECUTIVE SHIFTS
impossible!

I want to focus on
Medicine, **NOT**
DOCUMENTATION

My schedule shouldn't
force me to **MISS** my
daughter's ballet recital
on Friday!

I don't want to
CONSTANTLY SELECT
SHIFTS!

Existing softwares aim to simplify
scheduling by partitioning—
reducing department **TRANSPARENCY**

We spoke with **100+ doctors** to
get to the root of the problem

Our competitors haven't created
systems that can **LEARN** the doctor,
ADAPT to their limits

Current System
Schedules meet
Hospital or Individual
Demands, affecting
ACCOUNTABILITY

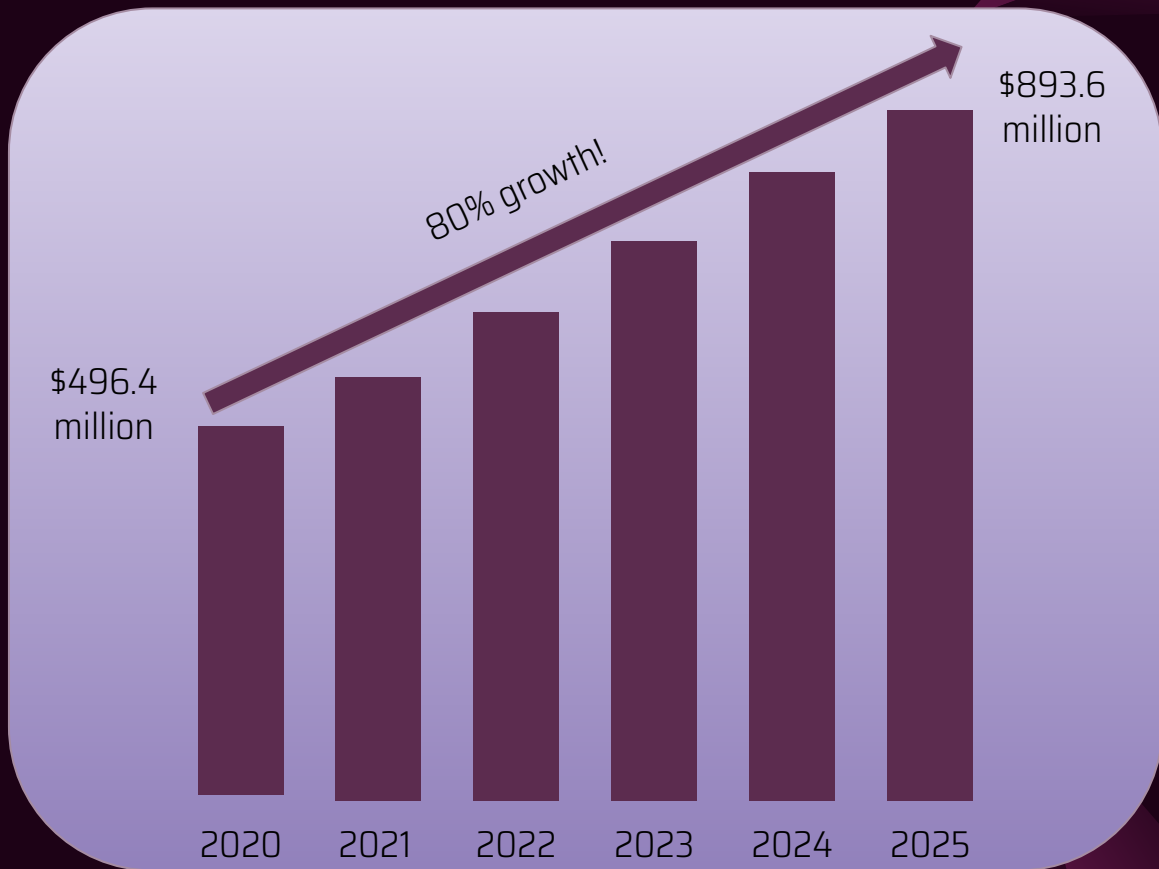

The physician is
forced to adjust to
the schedule.

REPEATEDLY

Where Do You Invest?

Testing Phase

1

Retain users from research phase

2

Implement system as SaaS platform

3

Tweak software for 3+ hospitals

Launch Phase

1

Deploy platform for pre-orders

2

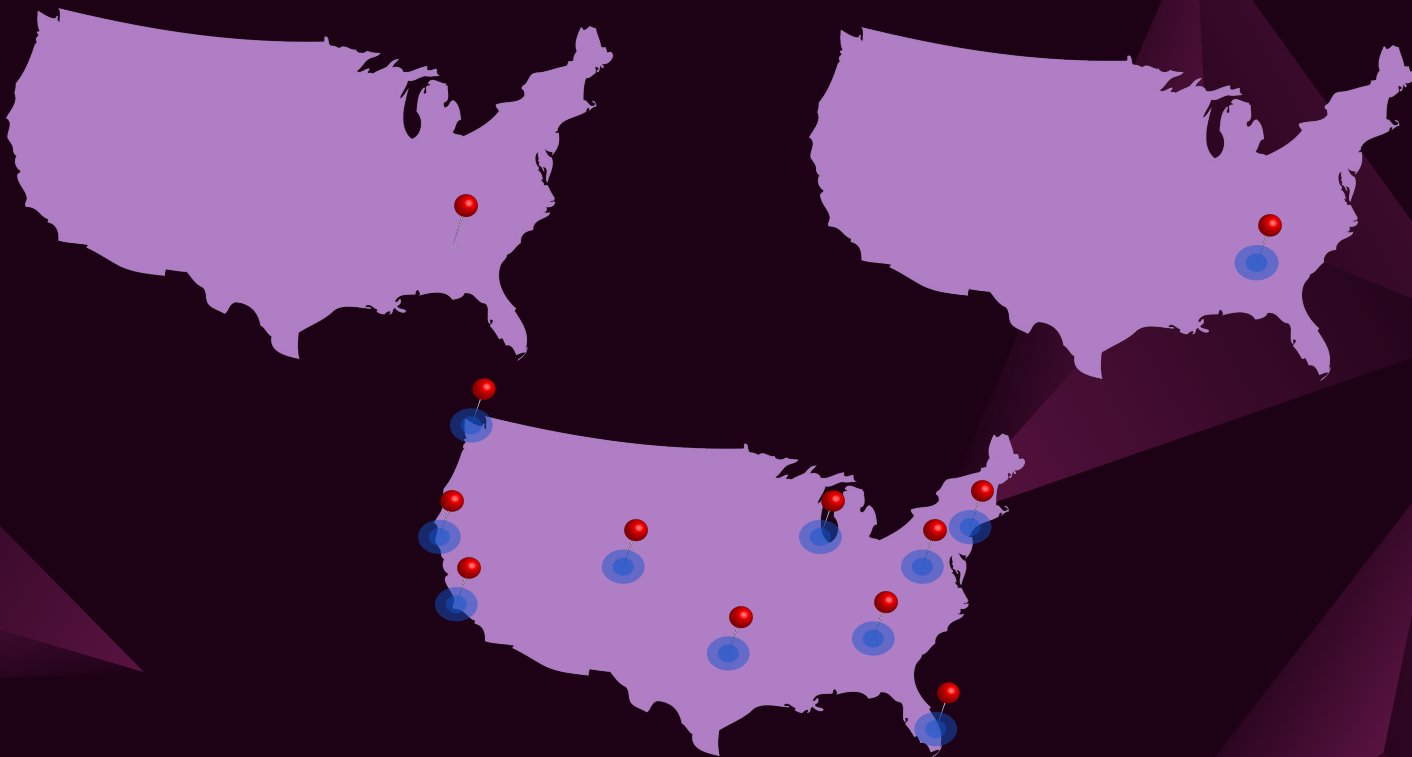

Perform cost-benefit analysis per client

3

Expand to areas outside ATL

Expansion Plan
